Profile

I'm a freelance software developer and student. I launched my first app as a sophomore in high school and have served many clients helping make their iOS app ideas a reality. I am currently studying Statistics with a minor in Mathematics at Temple University and am interested in fintech and quantitative finance.

Experience

Conference Assistant
Temple University Conference Services
May, 2019 - August, 2019   Philadelphia, PA
Assisted Temple University summer conference participants residing in university residence halls.

Intern
CoalCreative.com
Jul 2017 – Nov 2017   Wilkes-Barre, PA
Created websites using WordPress, HTML, and CSS. Attended meetings with clients and communicated progress updates on tasked projects.

Freelance iOS Developer   Appitech LLC
Apr 2016 – Present   Remote
Worked with multiple clients from start to finish making their app ideas a reality. Gained experience building client relations, managing expectations, price negotiations, and developing high quality, mission critical work in a time conscious manner.

Volunteering

Ambassador
Student Voice
Aug 2017 – May 2018
Attended monthly meetings, wrote op-eds and guides, circulated petitions, spoke to school board at public meetings.

Junior Leadership Program Graduate
Leadership Wilkes-Barre
Sep 2016 – May 2017
Planned and held charity event raising ~$2k for non-profit Victory Sport. Spoke to newspapers and generated interest through social media ad campaigns while tasked as group treasurer and in charge of outreach.

Judge, iOS Development Speaker
OwlHacks
March, 2019
Presented a 1-hour workshop titled "Intro to iOS Development" to hackathon students and helped judge submitted projects.
